At the CIMIT Innovation Congress, you reach an even blend of representatives of the academic, government, military, industry and non-profit sectors from the most influential hospitals, laboratories, tech companies and institutions working in healthcare.

CIMIT Innovation Congress 2008 attracted:

More than 600 attendees, in roughly equal proportions of industry, academia, and government and military

Attendees from seven countries and more than 20 states

Keynotes and speakers like Elias Zerhouni, MD, Director of the National Institutes of Health; James B. Peake, MD, Secretary of Veteran's Affairs; Maj. Gen. George Weightman, Commander, Army Medical Research and Materiel Command; Stephen Oesterle, MD, senior vice president, Medtronic; and Thomas Miller, CEO, Workflow and Solutions, Siemens Healthcare
